

Plasticus

BY MICROLIT

Microlit, a globally renowned leader in laboratory equipment and precision liquid handling solutions, has long been at the **forefront of innovation**. With a rich history of pioneering advancements in **pipettes, dispensers, and other laboratory instruments**, we have consistently pushed the boundaries of scientific excellence with **8000+ customers in 95+ countries**. Drawing upon decades of expertise and a deep understanding of the needs and challenges faced by researchers and technicians, we identified a **critical need in the market - high-quality, reliable, and cost-effective laboratory consumables**.

With a commitment to excellence and a passion for advancement, Microlit proudly introduces **Plasticus** – an extensive range of laboratory plasticware consumables, **engineered with accuracy**, designed to elevate scientific experimentation and discovery.

Quality is ingrained in everything we do. Our manufacturing procedures follow **stringent, multiple-quality protocols at our testing facilities** to ensure that each Plasticus product is carefully tested, engineered, and designed to withstand extreme conditions. From **pipette tips and microcentrifuge tubes to PCR plates and cell culture consumables**, Plasticus offers a **wide array** of products designed to streamline laboratory workflows and optimize experimental outcomes.

Enclosures of Samples of Lab Consumables

Product Name	Description	Catalog No.	Qty. (Per Piece)
Cell Culture Plate	96-Well, TC-Treated	CPT-96W	1
Cell Culture Flask	25 cm ² , TC-Treated	CFTS-25	1
Petri Dish	60 mm, Non-TC Treated	PD-60	1
Petri Dish	90 mm, Non-TC Treated	PD-90	1
Pipette Tips	10 µL, Non-Filter	TP-BG-10	25
Pipette Tips	200 µL, Non-Filter	TP-BG-200	25
Pipette Tips	1000 µL, Non-Filter	TP-BG-1000	25
Pipette Tips	5000 µL, Non-Filter	TP-BG-5000	2
Pipette Tips	10 mL, Non-Filter	TP-BG-10000	2
Serological Pipette	10 mL, Sterile (Individually Wrapped)	SP-10	1
Micro Centrifuge Tube	1.5 mL, Conical Bottom (Individually Wrapped)	MCT-150	5
Micro Centrifuge Tube	2 mL, Conical Bottom (Individually Wrapped)	MCT-200	5
Centrifuge Tube	15 mL, Conical Bottom (Individually Wrapped)	CT-1501	2
Centrifuge Tube	50 mL, Conical Bottom (Individually Wrapped)	CT-5001	2
Screw Cap Tube	0.5 mL, Grey Cap Color (Individually Wrapped)	SCT-50-S	4
Screw Cap Tube	1.5 mL, Grey Cap Color (Individually Wrapped)	SCT-150-S	4
Screw Cap Tube	2 mL, Grey Cap Color (Individually Wrapped)	SCT-200-S	4
ELISA Plate	96-Well, 8-Strip (Individually Wrapped)	EPST-96-F	1
Cryogenic Vial	81-Well, White Color (Special Treatment)	CV-2-ET	4

Note: TC Treated means Tissue Culture Treated.
